I serve as outside environmental counsel to Kiewit Corporation (<https://www.kiewit.com/>), which handles very large construction projects such as highways, bridges and pipelines (among many other things). We would like to meet with Mr. Benevento to facilitate a brief introduction with Kiewit's key environmental leadership to discuss Kiewit's environmental policies and priorities, its projects and activities in the region, and to seek some feedback on a relatively small stormwater enforcement action currently pending in the region. I anticipate that the meeting would not need to run any longer than 1 hour and if you send me some proposed dates/times, I can try to respond very quickly to confirm.
